DELIVERY OF PRODUCT TO CLIENTS' PREMISES BY N&A TRANSPORT CARPET LOGISTICS

N&A Transport Carpet Logistics' obligation:

N&A Transport Carpet Logistics' contract is to deliver product to clients' premises e.g. carpet stores and warehouses.

Our obligation in this regard is to provide on-site access for receivers' staff to our trucks at these locations – this includes delivery to an agreed unload point on-site, and access to the loaded products on the N&A vehicle (ie opening of the loading doors of the N&A vehicle).

Additionally, reconciliation of the delivery is undertaken against the manifest for the load.

Additional assistance:

N&A drivers, in usual situations, are prepared and happy to provide further assistance to receivers' staff with the unloading of the vehicle.

Liability:

If receiver location managers or their representatives wish N&A staff to assist with such unloading activities, it must be understood that N&A Transport Carpet Logistics will not accept liability for any damage occurred whatsoever in any way as a result of this assistance provided by its driver.

Responsibility:

In these situations, all incidents and/or accidents inside or outside the receiver's premises as a result of providing this assistance are the responsibility of the receiving organisation, including, but not limited to, adherence to all Occupational Health and Safety requirements, and all insurance liabilities associated with this assistance.

Acknowledgement:

I have read and understand the conditions for accepting product delivered from N&A Transport Carpet Logistics as detailed above.
